

DESKTOP FAX

Cut costs, paper, equipment and complexity. Switch to babyTEL Desktop Fax to send and receive faxes by email.

The babyTEL Advantage

- + Sending a fax has never been easier: send faxes directly from your email account or babyTEL web portal.
- + Receive faxes as PDF email attachments which you can save, print, forward or delete.
- + View your fax history and costs in real time on the babyTEL web portal.
- + A reliable and secure enterprise faxing service that can be extended to remote locations.
- + No phone line or fax machine required!
- + Ensure the security of proprietary mission critical fax data.

QUALITY AND RELIABILITY

Rely on our high availability infrastructure, thanks to redundancy, security, optimization and around-the-clock monitoring.

ARCHIVE YOUR FAXES

Easily archive faxes in your email folders, now that all incoming and outbound faxes are PDF email attachments.

VIRTUAL NUMBERS

Set up a unique, local phone number wherever you do business. Create local numbers for each office or employee.

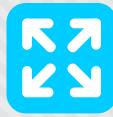

VIEW FAXES ON YOUR MOBILE DEVICE

View all incoming faxes on your mobile device as PDF attachments.

KEEP YOUR EXISTING FAX NUMBERS

Easily move all your existing fax numbers to babyTEL, free of charge.

ONLINE ACCOUNT MANAGEMENT

Simply log in to manage your account, change preferences, add new services and view your billing and call details.
